Phone: (303) 966-3391

Regulatory Contact: Denise Onyskiw
Phone: 303-692-3371

Agency: CDPHE

Purpose of Contact: Approval to invoke DPP Section 1 1 5 for B790 removal of equipment that is connected to the B790 ventilation system and initial consultation for hazard reduction activities in B790

Discussion

Denise Onyskiw (CDPHE), Steve Tower (DOE), and I toured B790 and discussed an approach for the removal of equipment and hazards within B790 in preparation for reconnaissance level characterization followed by utility disconnection and D&D of the building. It is agreed that all of the loose equipment and fixed equipment that is not attached to the building ventilation system can be removed using the consultative process. Additionally, it is agreed that DPP section 1 1 5 will be invoked for the removal of the B790 fume hood and the control room panels. The ventilation system for these pieces of equipment does not contain HEPA filters and the equipment has never been used for radiological or hazardous materials work.
